1. Computer with neural engraving and memory card is object to hold the neural electromagnetic particle.

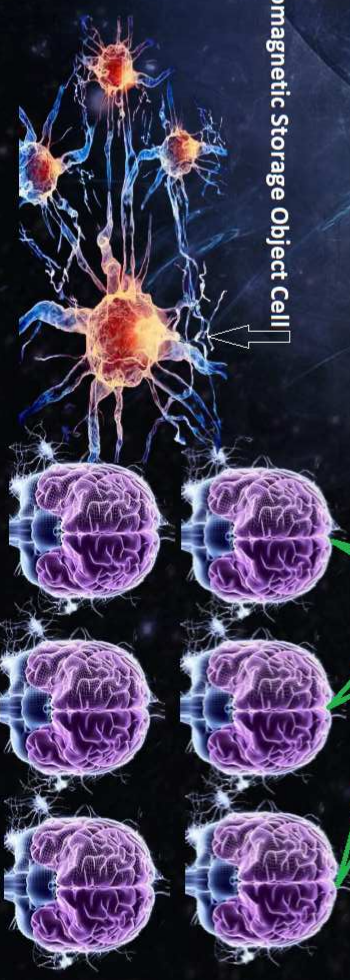

Telecom Reflexion and Reflecting

Electromagnetic Environment

3. Reflexion and reflecting it binds and connects the human being as a system with the electromagnetic environment covered by the electromagnetics, the electrical particle of the computer with neural engraving and the electrical particle of the brain cell holding the memory and when the electromagnetic oscillating it spreads entire environment. Humans in system of electric waves and electromagnetics.

2. Brain has cellular object that holds electromagnetic particle called memory.

ENVIRONMENTAL RESCUE

(The Life)

The Life And Living Environment

The atmosphere has electromagnetism, it's in the air because the sun and volcanoes are underground. The atmosphere has steam and it evaporates from the earth filled with seawater. The atmosphere has oxygen and it is in the air because of the natural forest.

The atmosphere exists forever, covering the earth with steam evaporating from the earth and falling back because of the sun and volcano. It spins and creates an atmosphere that covers the earth. Electromagnetic and steam keep warm, it stimulates plant cells to create natural forest and it provides oxygen in the air to help the environment have life. In environment has cloud and sound because the earth has steam evaporating, it combines a large amount of steam called clouds or rain clouds. The nearest clouds contain more water vapor and the taller clouds are thinner. When there is a large amount of water vapor (cloud rain) that touches the area with a lot of electromagnetism, it will produce a loud sound and it is called thunder. Electromagnetic in the air, it leads sound to the listener. It rotating circulate.

The Life And Human Life

Humans are created by a large number of animal cells like dinosaurs. While animals are decomposing, animal cells bind together into one. It has very high electromagnetism in the air that activates the cells together and creates the shape of the current human being. Human life must have the environment like the earth we live in now, it has steam, electromagnetism and oxygen.

Dangerous For Humans And The Environment

Destroying natural tree forests or arranging surrounding electricity and waves in the area where people live, it is dangerous for humans. Lack oxygen humans will die, lack of water humans will die and increasing excess electromagnetisms humans will die.

The Disaster Of Technology

Telecommunications have the technology of disaster, to put it simply it's like the technology of computers and mouse. They engraved human nerves into telecommunications technology such as computer and mouse, reflects down to humans be alikend computer mouse.

The environment has electromagnetic and technological reflexive lead many people hear telecommunications due to human cell melting and electrical disturbances. Telecommunications have electromagnetic carrier that are reflecting down to humans. Humans are purely cellular

objects, the water behind the skin. The cell object is a water particle when it encounters an electromagnetic particle the water particle will melt. Telecommunications harm cell melting.

Causes 3 Groups Of People At Different Melting Levels.

1. Normal psychology but controll and dominate by others
2. Psychology be obsessed with human
3. Psychological brain hears telecommunication

Computer with neural engraving or letters. It has memory card to save and memory drive is object to hold the electromagnetic suitable for the electromagnetic environment so it stays there.

Humans have nerves like carving on the body. It is electromagnetic storage object cell called electrical energy and the brain is a memory, there is object that holds electromagnetic in accordance with the electromagnetic environment so it remains there called memory.

Reflexion and reflecting it binds or connects people to the system, activating or oscillating electromagnetic such as clicks, electricity large out and reflecting electricity to become the system.
